Sutter Regional Medical Foundation

Women's and Children's Services | (707) 427-4900 | Fairfield, Vacaville, Vallejo | srmf.org

We offer women and children of all ages the most comprehensive health care services available anywhere in the region. Our spacious, serene and comfortable care centers are staffed by an outstanding, cheerful and professional support team.

Our obstetrics and gynecology team, composed of board certified OB/GYN specialists, office-based certified nurse midwives and nurse practitioners, provides a variety of prenatal and gynecological services. We offer exceptional outpatient urogynecological surgical procedures for the treatment of pelvic disorders that are common in women after childbirth, such as urinary incontinence and prolapse (falling) of the bladder and/or uterus.

State-of-the-art women's diagnostic imaging capabilities provide our patients with access to services such as digital mammography, breast MRI and bone densitometry.

Pediatric services are performed by board certified physicians who care for patients from birth to adolescence, with medical issues ranging from simple to complex. For your convenience, a pediatrician is always on-call to respond to any after-hours patient care needs.

We're part of Sutter Health, Northern California's leader in the care of women and infants. To find out more about our programs or services, or to request an appointment, visit srmf.org or call 707-427-4900. ■
